

REMARKS

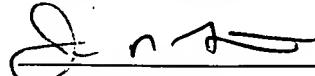

The foregoing amendment to Brief Description of the Drawings portion of the present application is presented in response to the Notice of Drawing Inconsistency with Specification dated February 26, 2008. The Notice of Drawing Inconsistency with Specification noted that Figures 14 and 15 were contained in the Drawings but were not listed in the Brief Description of the Drawings in the specification.

Upon review of the application and drawings, Applicant has discovered that the Brief Description of the Drawings contained in the application as originally filed contains several inconsistencies with the Detailed Description and Drawings of the present application. The foregoing amendment corrects the errors contained in the Brief Description of the Drawings as originally filed. As amended, the Brief Description of the Drawings includes a brief description of all the Figures, Figures 1 through 15, contained in the Drawings and discussed in the Detailed Description. Appropriate adjustments to paragraph numbering will be required.

No new matter has been presented with this amendment. All changes presented in the foregoing amendment are fully supported in the Detailed Description of the originally filed application.

In view of the foregoing amendments and remarks, it is believed that the application is in condition for allowance. Early and favorable action is respectfully requested.

Respectfully submitted,
